9.00: Drivers Briefing. All drivers and track passengers to attend this very important briefing. If you do not attend, you may not be able to get on track.

9.30: The driving action starts.

To avoid too many problems between Very fast competition vehicles & drivers & those with less power or experience. Please note the following.

The track day is an open Pit event, this means that all drivers are free to enter & leave the track at any time, subject to appropriate direction of the marshals.

However. To reduce any potential problems that may be caused by large speed & experience differentials, the following **ADVISORY** plan is suggested.

Each first half hour: (30 mins from O'Clock to half past) The track is open to all cars, but priority is given to lower powered cars & less experienced crews. More experienced crews in faster cars are welcome, but they **MUST** take into account the slower, steadier nature of the session.

Each second half hour: (30 mins from half past to O'clock) The track is open to all cars, but priority is given to higher powered cars & more experienced crews. Less experienced crews & slower cars are welcome, but drivers must appreciate that they may be overtaken by very powerful vehicles travelling at anything up to racing speeds.

All drivers are reminded that this is a track day, **NOT A RACE**. At all times drivers must drive with consideration for those around them, must follow all instructions given by Marshals or other responsible people. If a driver is repeatedly warned by the marshals he may be asked to leave the track & may not be allowed back on.

12.00: Lunch break.

13.00: Prize giving outside office in paddock area.
