FASTENER DECODE BOOKLET For B.M.C. Vehicles
FOR YOUR INFORMATION

This “Fastener Decoder Booklet” is a reproduction of a pamphlet distributed by the British Motor Corporation to its dealers in 1964.

We have endeavored to match the simple typed style of the original and have reduced the page sizes in order to produce this useful booklet.

The below letter was included with the fastener information.

PARTS INFORMATION BULLETIN

May 1, 1964

TO ALL DEALERS

SUBJECT: B.M.C. Standard Parts

One of the problems confronting parts men handling B.M.C. parts is the identification from the part number of certain standard parts such as bolts, washer, nuts, etc.

We know the execution of many orders is delayed awaiting the supply of these parts, when in many cases a similar part may already be in your general hardware stock. In order to assist you in this problem we have produced a list of popular standard parts, compiled on the most compact form possible, and enclose a copy of this list. A few moments study of the list will enable you to follow the general pattern.

You will see that the prefix letters refer to the type of parts, the thread, and the finish. The four figures refer to the size. In the case of bolts and screws the first two figures represent the diameter in sixteenths of an inch and the other two figures refer to the length in eighths of an inch. An example could be HBP 0616 which is a 3/8” x 2” Hexagon bolt with U.N.F. thread in chrome finish.

We will be pleased to supply further copies of this list on request.
### B.M.C. Standard Parts

#### Bolts
