PLUSPAC 'A'

TWIN CARBURETTER KIT

C-AJJ 4111 FOR 1500 cc ENGINES

C-AJJ 4111A FOR 1750 cc ENGINES

This Pluspac has been designed and developed to give an increase in engine power and torque, resulting in improved engine flexibility and performance throughout the engine speed range. This makes the car more pleasant to drive and by giving increased power where it is most needed improves the already excellent safety qualities of this model.

Each Pluspac comprises twin $1\frac{1}{2}$ " S.U. carburetters, air cleaners, free flow exhaust system, inlet and exhaust manifolds. All necessary fitting parts such as throttle connecting rods, brackets, gaskets, nuts and bolts, are included with detailed fitting instructions.

The fitting of this Pluspac does not invalidate the Owners Service Statement.

An indication of the improvement likely to result from the fitting of this Pluspac is as follows:

M.P.H.	Km.P.H.	Acceleration through gear from rest
