TO ALL B.M.C. CAR DISTRIBUTORS

For the attention of the Parts Manager

Dear Sir,

Before you or your staff order any further supplies of Mini Wing Extensions, we would like to ensure that you quote the correct Part Number and Description for type your customer requires.

Three types are now listed as follows:

C-AJJ 3316A Narrow Wings Price £6.6.0. Code 7 1 off per car

These are the original narrow wings, which require the chrome finisher to be removed and put onto a flange around the wing extensions. They are suitable for use with standard 3½" wheels or 4½" wheels, and comply with both Road Traffic Act requirements and F.I.A. Regulations. When ordering ensure suffix A and description 'Narrow Wings' are included.

C-AJJ 3316 Wide Wings Price £8.0.0. Code 7 1 off per car

These are modified versions of the earlier wings, made wider to meet the regulations when 5½" wheels are fitted. Again the chrome finisher is refitted to the outer edge of these wings. When ordering ensure correct Part No.

C-AJJ 3316 and description 'Wide Wings' are quoted.

C-AJJ 3353 Wide Wings Price £8.0.0. Code 7 1 off per car

These are new wings designed for maximum strength leaving the chrome finisher on the body flange. They are the maximum width permitted by F.I.A. regulations and are suitable for wheels with rim widths up to 6". Ensure correct Part No.

C-AJJ 3353 is quoted when ordering.

### NOTE

If either type of Wide Wings would be accepted, omit the Part No. (or quote both) but ensure 'Wide Wings' is quoted. We will then supply which ever is available. Any orders received after June 1st quoting Part No. C-AJJ 3316 without 'Wide' or 'Narrow' will be returned.

Please advise the correct Part No. and Description of the outstanding orders shown overleaf to ensure early action.

Yours faithfully,

B.A. Wales  
Manager
