AVANTI

AVANTI LEATHER RACING WHEELS

These superb 13 inch diameter wheels have been designed primarily for racing, but are equally suitable for rally or road use.

Manufactured from extra heavy gauge high tensile aluminium alloy for rigidity and strength, they are beautifully trimmed with a hand-stitched leather rim complete with sponge rubber underlay.

Avanti wheels enhance the appearance of any car, and are light to the touch and perfect for control. All standard manufacturers fittings are accepted and the wheel can be fitted in minutes.

Also available in 15 inch diameter fittings for most popular makes of car.
