THE MOTORTUNE DASHBOARD & INSTRUMENT PANEL

Few accessories enhance the interior of a Mini or a Mini - Cooper as much as the MOTORTUNE Dashboard and Instrument Panel.

The illustration shows how splendidly the Dash blends when covered in black plastic cloth.

Sturdily moulded, ready for covering, to take whatever and however many instruments the owner desires (i.e. the fascia panel is left blank, ready to be cut), the MOTORTUNE Dashboard costs £5; covering for top in best quality PVC £1 extra; drilling (as illustrated) 10/- extra. (Postage and packing 15/- extra).

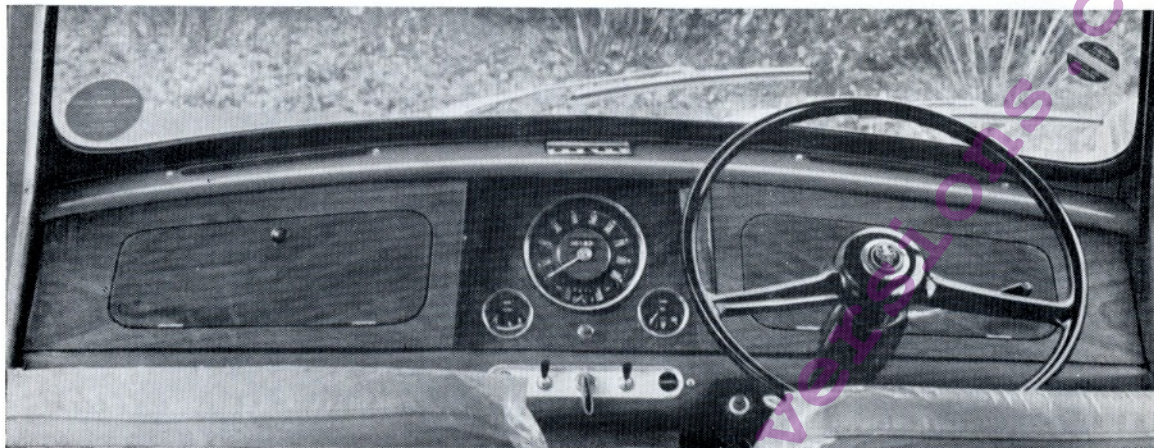

Suggested Extras	MOTORTUNE Ohnar Rev-counter (round $3\frac{5}{16}$ " dia.)	£7 10 0
	Smiths Rev-counter ($3\frac{3}{16}$ " dia.)	£9 15 0
	Extra length speedo cable	17 6
	Water temperature gauge :	Smiths £3 5 0
	Ammeter :	„ £1 7 6
	Oil pressure gauge :	„ £3 5 0

THE MOTORTUNE "ELF" WALNUT DASHBOARD

For Owners of the BMC ADO 15 who require the ultimate in interior luxury finish, the 'Elf' Dashboard must surely be the answer.

Of specially selected grained Walnut Veneer, and most accurately made, the Dashboard has two glove pockets allowing virtually full use of the present parcel shelf. The pocket lids are veneered both sides, and the whole 'Elf' Dashboard is highly polished to a 'piano' finish.

The transferring of the instruments to the new panel is simplicity itself, and the holes for the three instruments and dashlight are already drilled.

The Dashboard comes in three parts with everything necessary to fit straight into the car as on the illustration above. It is sent well packed in a box 21" x 9½" x 3". It therefore can be easily sent as a present or for export: (weight 3 lbs.).

Fits all Minis, Mini-Coopers, Wolseley Hornets and other ADO 15 models with the exception of the Moke, (and of course, the Riley Elf).

£6 18s. 6d. Complete
(postage in U.K. 5/- extra)
