Type 2

These versatile and luxurious seats have been developed for the Motorist who would appreciate the supreme comfort usually associated only with expensive cars. They are manufactured from the finest materials and incorporate the very latest seating design techniques.

The infinitely variable adjustment of the back-rest through 30 degrees eliminates fatigue for Driver or Passenger. The simple over-riding lever mechanism fully reclines the back rest for complete relaxation when necessary. Long tiring journeys become a pleasure.

These seats are available in Black P.V.C. trim only. When ordering, please state the make of vehicle and whether left-hand, right-hand or both hand seats are required.

Seat reference numbers are given on our separate "Supplementary Lists".

WEIGHT: 27 LBS

The Company reserve the right to make any alteration in design or specification of any model without notice and to deliver goods conforming to the altered design or specification in fulfillment of any order.
